Setting the tone
Enjoying aesthetics

Living space takes on the personal touch only with individual details. Furniture, floors, accessories and colours as well as matching wall design play an important role here. The very expressive basic55® light switch range offers here a comprehensive colour concept for the design of living spaces. When viewed from the current language of colour expressed by international architects and designers it convinces with classic colours which reflect the spirit of modern living style.

One concept
Numerous possibilities

Those who design their living space wish to do it according to their own personal design concept. Which means that the colours must match the concept. And here basic55® convinces with two distinctive lines and several colour options. The available combinations of frames and rockers make it possible to adapt them harmoniously to all surroundings and individual style.
