

Light strip

RACER – R6555102

incl. 1x SMD, 15W · 1x 1250lm, 3000K

- Remote control
- Integrated dimmer
- RGB Colorchanging
- Not suitable for external dimmer
- Memory function
- IP20
- Sound Control
- Dynamic Light
- Can be individually shortened

Feel the light of gaming! The RACER strip light impresses with the many ways in which it can be used. As a light accent on individual pieces of furniture or as indirect, glare-free lighting on a TV or PC screen, the RACER light strip lends the ambience a modern and special character. The five metre long LED strip can be shortened at the markings provided, making it ideal for personalised design. The Dynamic Light function creates a fascinating atmosphere with pre-programmed, dynamic lighting scenarios that add fascinating lighting effects to the multi-coloured or monochrome mood lighting. The Stripe is also equipped with the Sound Control function. Using a built-in microphone, the RGB LEDs react to ambient noise in real time and transform music, films and gaming into captivating, rhythmically adapted light effects. All functions and the brightness can be controlled using the included remote control. The Stripe is kept in a plain black colour so that it blends unobtrusively into any furnishing style, especially when switched off. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, produce less heat and protect the environment.

Material construction

Plastic · Black

Product dimensions

Width: 500cm
Depth: 1cm
Weight: 0,2kg

Technical data

Light source: SMD – LED (integrated)
Watt: 15W
Lumen: 1x 1250lm
Kelvin: 3000K
Color rendering (CRI): > 80 CRI
Lifetime: 25000H
Switching cycles: 15000x ON/OFF
