

Light strip

RGB STRIPE – R65485169

incl. 1x SMD LED, 24W · 1x 1200lm, 3000K

- **Remote control**
- **Integrated dimmer**
- **RGB Colorchanging**

The STRIPE light impresses with the variety of ways in which it can be used. The LEDs installed on the five-metre-long strip can be switched through in all rainbow colours and in different, changing colour modes using the enclosed remote control. The light is therefore a real eye-catcher in any living environment. The strip itself is kept in a plain white colour so that the light blends unobtrusively into any furnishing style, especially when switched off. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.

Material construction

Plastic · White

Product dimensions

Width: 500cm

Depth: 1cm

Weight: 0,2kg

Technical data

Light source: SMD – LED (integrated)

Watt: 24W

Lumen: 1x 1200lm

Kelvin: 3000K

Color rendering (CRI): > 80 CRI

Lifetime: 25000H

Switching cycles: 10000x ON/OFF
